C Topics to Cover (30 Days)

Develop By Dennis Ritchie in 1972 at Bell Lab in America.

- **Basic about C Language:-**

- Token
- Keyword
- Identifier
- Data Types
- Variables
- Operators
- **Control Statements**
 - Cond-n :- if / if...else / nested if / If else Ladder
 - Looping :- for / while / do while / Nested For
 - Jumping :- Continue/ Break/ Switch /go to
- Function
- Recursive Function:- Recursion
- Array
- Passing Array To Function
- Pointer
- Call by value
- Call by reference
- Structure
- Union
- **String :**
 - Strcpy()
 - Strrev() etc.
- File Handling

CPP Topics:- OOPS (30 Days)

Develop By Bjarne Stroustrup 1980 at AT & Bell Lab

Basic about CPP:-

- Token
- Keyword
- Identifier
- Data Types
- Variables
- Operator
- **Control Statements**
 - Cond-n :- if / if...else / nested if / if else ladder
 - Looping :- for / while / do while / Nested For
 - Jumping :- Continue/ Break/ Switch /go to
- Function
- Recursive Function :- Recursion
- Array
- Array of Object
- Passing Array To Function
- Pointer
- Call by value
- Call By Reference
- Structure
- Union

// OOPS Concepts

- Class & Objects
- Constructor
- Constructor Overloading
- Inheritance (OOPs)
- Polymorphism
- Method Overloading
- Method Overriding
- Abstraction
- String Function
- Math Function
- File Handling
